RE: Justin Smith

Justin Smith is a fifth grade student in our school, Hudson Elementary, in Hudson, Illinois. Justin, in the eyes of his teachers, is an outstanding young man. Personally, I find him to be very responsible, extremely thoughtful and courteous to both his classmates and the adults in our building. Justin always has a smile and a kind word for everyone.

Justin is an honor roll student which means he regularly earns "A's" in his academic work. He is always willing to help other classmates who may be having a difficult time with a subject that Justin has mastered. He is extremely polite and works well in game and competition activities as well.

Justin is involved in the Scouting program and is a fine representative of that organization. It has been a pleasure to work with Justin at Hudson Elementary School. I find him to be an outstanding representative of our school family and know that he will achieve great things for his family, his school, community, and also for his country. We need more outstanding young people like Justin.
